At Andalusia Regional Hospital, our goal is to deliver the best healthcare available in the Southern Alabama region as we seek to make our community healthier. With the help of dedicated physicians, employees, volunteers and board members, along with your support and encouragement, we continue our passionate pursuit of excellence.

Delivering quality healthcare close to home is the single most important contribution we make. But there are many other ways we make a positive impact on the communities we serve. Here are a few of the ways we are making a difference.

More than $2 million in capital improvements

In 2014, we completed flooring renovation projects on third floor and main lobby, replaced south entrance canopy, and started phase two of the window replacement project that was completed in January 2015. New equipment to support cardiology services included a nuclear medicine system, cardiac stress equipment, and 64-slice CT scanner. Other purchases were made to improve the facility plant operations including a chiller, vacuum pump, and HVAC replacements.

In fact, we invested $2,006,080 in our facility last year which, in addition to the above, included technology replacement, information technology additions/updates, and important facility upkeep and maintenance.

Contributing to our local tax base

Last year, Andalusia Regional Hospital paid $843,566 in taxes which helped support our city, county and state. This included sales taxes as well as property taxes. These dollars help maintain local schools, fund the development of roads, recruit business and industry, and provide other similar services vital to support and sustain a thriving economy.

Helping those in need

Andalusia Regional Hospital is committed to ensuring the delivery of needed healthcare to all members of the community, regardless of ability to pay. Last year, the cost to Andalusia Regional Hospital was more than $2.1 million to provide services for those without the ability to pay for their care.

Adding new physicians

During the past year, Andalusia Regional Hospital added a cardiologist to our highly respected medical staff.

One of our community’s major employers

With an annual payroll of $14,172,556 and an average of 289 employees, Andalusia Regional Hospital is one of the largest employers in the region. This means that our staff and family members attend many of the same schools, shop at the same stores and volunteer their time and resources for the same organizations as you do.

We thank you for choosing us for your healthcare needs. With your support, we can continue making our community healthier.
