At Twin County Regional Healthcare, our goal is to deliver the best healthcare available in the Twin County region, as we seek to make our community healthier. With the help of dedicated physicians, employees, volunteers and board members, along with your support and encouragement, we continue our passionate pursuit of excellence.

Delivering quality healthcare close to home is the single most important contribution we make. But there are many other ways we make a positive impact on the communities we serve. Here are a few of the ways we are making a difference.

**More than $5.2 million in capital improvements**
In the next year, Twin County Regional Hospital plans to complete an interior renovation project. Recently, we have added state-of-the-art imaging technology including a 64-slice CT scanner and new MRI equipment.

In fact, we invested $5,266,646 in our facility last year which, in addition to the above, included technology replacement, information technology additions/updates, and important facility upkeep and maintenance.

**Contributing to our local tax base**
Last year, Twin County Regional Healthcare paid $1,410,057 in taxes which helped support our city, county and state. This included sales taxes as well as property taxes. These dollars help maintain local schools, fund the development of roads, recruit business and industry, and provide other similar services vital to support and sustain a thriving economy.

**Helping those in need**
Twin County Regional Healthcare is committed to ensuring the delivery of needed healthcare to all members of the community, regardless of ability to pay. Last year, the cost to Twin County was more than $4 million to provide services for those without the ability to pay for their care.

**Adding new physicians**
During the past year, Twin County Regional Healthcare added five new physicians to our highly respected medical staff, including specialists in cardiology, pediatrics, psychiatry and hospital medicine.

**One of our community’s major employers**
With an annual payroll of $31,760,201 and an average of 569 employees, Twin County is one of the largest employers in the region. This means that our staff and family members attend many of the same schools, shop at the same stores and volunteer their time and resources for the same organizations as you do.

We thank you for choosing us for your healthcare needs. With your support, we can continue making our community healthier.
